Hello to all sled dog friends in Europe,

I write this mail because of a very serious subject. The Hamar Hundekjörer Arena is in danger.

Everybody who trains there regularly heard for sure about the problems between the municipality and the HTK. The Board of HTK fights since years against the efforts to dismantle the Arena in favour for more cabins.

Until last year, HTK won these law suits. This spring, the situation changed in a dramatic way.

You will find attached two letters. One of them is for you. It declares the need and the urgency to do something. At the end of this letter, you will find a report of all the problems, the legal point of view and so on,

written by Svein Erik Teslo from HTK. The second letter is the text I sent to the HTK as a letter of support and to the NHF (Norwegian Federation). Sled dog sports is well recognized in Norway, at least the Long Distance scene. I think we should ask NHF for help, too. NHF is responsible for Sprint and Mid distance as well. Just see this letter as possible sample how a letter of your federation might look.

The mail addresses of HTK is k-hi@online.no

The mail address of NHF is post@sleddog.no

Best Regards –

And let us support Hamar Trekkhundklubb!

Detlef Oyen
