Hi Belgium, here comes a newsletter from IFSS.

*This is a system generated email, **do not** reply to this email...*

LET'S FILL THOSE CLASSES – WE'RE JUST ONE ATHLETE AWAY!

Dear Federations!

We're so close to making some of our most exciting classes a reality at the upcoming 2025 Dryland World Championship/World Masters in Wisconsin USA — but we need YOUR help to get them over the line!

The following classes are just ONE (1) athlete short of opening:

- DBW RNB
- DCMM40
- DCWJ
- DR6

If you know someone who's been thinking about joining — now's the time to give them that final nudge! Let's rally together and make sure these classes don't miss out. Every athlete count, and your encouragement could be the reason a class goes live! Please note that if any of athletes have issues with equipment get it touch with us asap (USFSS Federation offered to help with rigs, bikes/scooter or even dogs). We would like this to be "fast tracked" if possible. **Get in touch as soon as possible!**

RELAY TEAMS NEEDED – LET'S BRING THE ENERGY!

We've noticed many federations haven't submitted relay teams yet — and we want to change that! Relays are one of the most thrilling parts of the championship. They showcase all three disciplines, bring teams together, and are always a crowd favorite.

Let's do this together. Let's make it happen. Let's make it EPIC.

Got questions or want to sign one (1) of your athletes?

Reach out now — we're here to help, please email development@sleddogsport.net
